EDUCATION

University of Cincinnati, Carl H. Lindner College of Business — Cincinnati, OH
Master of Science in Information Systems and Graduate Certificate in Data Science — GPA: 3.95/4
April 2022

Pune University, Maharashtra Institute of Technology — Pune, India
Bachelor of Engineering in Petrochemical — June 2017

TECHNICAL SKILLS

Concepts: Business Intelligence, Data Visualization, Statistical Analysis, Predictive modelling, Machine Learning, AI application development, Data Mining Concepts, Data Governance, Cloud Computing, A/B testing.
Programming Languages and Tools: SQL, Python, UNIX Shell Scripting, Redshift, Teradata, Snowflake, Apache Spark, Hadoop, MSTR, Tableau, Microsoft Excel, Agentic AI powered KIRO IDE, TensorFlow, Keras, XGBoost, Scikit-Learn, JIRA, Collibra, One Automation, Airflow.
Certifications: Data Science Graduate Certificate – University of Cincinnati

PROFESSIONAL EXPERIENCE

Charter Communications — Charlotte, NC
Data Scientist — May 2022 – Present

- **Built and deployed XGBoost classification models** to predict customer support-seeking behaviors and repair calls, contributing to a **20% improvement in service reliability.**
- **Developed proactive anomaly detection systems** using machine learning to identify data discrepancies with **95% accuracy**, significantly reducing downstream reporting errors.
- **Architected advanced predictive models (SARIMA)** to forecast truck rolls for customers, optimizing workforce capacity planning and reducing response times by 20%.
- **Engineered an automated testing framework for SpectrumIQ**, an enterprise-wide conversational AI platform, reducing manual QA turnaround time by 50% and accelerating release cycles.

ETL Developer

- **Architected a modular Data Quality Audit framework** that enables the seamless integration of new audit logic, creating a scalable and maintainable suite that serves as the organization's primary data integrity engine.
- **Engineered comprehensive Data Quality dashboards** to facilitate a seamless migration of BI assets from Teradata to AWS Redshift, maintaining 100% data integrity during the transition.
- **Engineered an automated, notification-driven Data Quality Audit framework** that streamlined short-term validation cycles; reduced operational turnaround time by **over 80%** while ensuring real-time data reliability.
- **Engineered a custom Data Profiler tool** using **Agentic AI powered KIRO IDE** to automate the initial assessment of raw datasets, reducing the time spent on manual data discovery by over 40%.

Business Intelligence Analyst

- **Designed Key Operating Metric (KOM) Dashboards** for executive leadership, synthesizing complex datasets into high-level visualizations to drive data-informed corporate strategy.
- **Engineered multi-layered Data Quality Audits** leveraging **Stored Procedures, MicroStrategy, and Tableau**; implemented automated "firewall" audits that preemptively block reporting during data breaches to maintain organizational trust.

- **Spearheaded Postmortem Root-Cause Analysis (RCA)** for critical data integrity failures, synthesizing business impact reports and collaborating with cross-functional stakeholders to deploy long-term preventative frameworks.
- **Resolved high-complexity, cross-functional BI challenges** by performing advanced statistical analysis to decode intricate data relationships and anomalies, directly influencing strategic business decisions.

Ameritas Insurance Cincinnati, Ohio
Data Governance Intern September 2021 – April 2022

- **Co-engineered the enterprise-wide Data Advocacy & Governance Program**, establishing the foundational frameworks for data democratization and organizational accountability.
- **Architected a comprehensive Data Intelligence ecosystem in Collibra**, including a centralized Data Dictionary, automated Data Quality rules, and end-to-end Data Lineage to ensure regulatory compliance and transparency.

Accenture Pune, India
Test Engineering Analyst September 2017 – December 2020

- **Orchestrated end-to-end Quality Assurance** for mission-critical client applications at **Allianz Insurance**, leveraging **Agile SDLC methodologies** to ensure rapid, high-quality feature deployments.
- **Spearheaded the Health Insurance module QA strategy**, directing cross-functional efforts for both regression testing and the successful rollout of complex new functionalities.
- **Driven operational excellence by automating core regression test suites**, significantly increasing resource productivity and reducing manual testing overhead through scalable automation frameworks.
